Subject: AppB-GenX: Internal Agency Review of PFAS Toxicity Value Assessments
Attachments: Appendix B_GenX_version051518.pdf

Hi everyone: Just got this last piece. It describes how the DuPont/Chemours data were evaluated.

Subject: FW: Internal Agency Review of PFAS Toxicity Value Assessments- GenX and PFBS WITH special instructions

Hi all: Please see the email below announcing the internal peer review for PFBS and GenX health assessments (and draft charge to external peer reviewers).

A few notes about how I plan to coordinate this review given the short timeframe and the large number of folks who may provide comments:

- 1) **Please provide comments by noon, May 23 - so that I can pull them together and submit them to NCEA and OW by COB Friday May 25.**
- 2) **Please provide comments in the documents – not as a separate word file – including any general comments that you might have.**
- 3) **While in “review” mode, click on the right bottom corner of “tracking” on the tool bar and “change user name” to ORD for your name and your initials. This will alleviate confusion and allow me to better sync the comments. I will keep track of who is commenting and will make sure you are recognized as reviewers.**

Thanks everyone. I am reaching out to STLs, the rest of OSP, and Valerie Z and Mike H. for awareness. I am also reaching out to the RSLs to make sure they know these are out there and that they should work through their regional contacts. And if you have questions, please call me.

Lynn

Subject: RE: Internal Agency Review of PFAS Toxicity Value Assessments- GenX and PFBS

Hello all,

We are pleased to provide the **draft human health toxicity assessments of GenX and PFBS** for your review. This is a 2-week review timeframe. To provide comments please provide only one document from each region and program containing compiled office comments. The assessments for review are available [here](#) and your version containing comments (or other written comments) should be uploaded in this site.

Four specific notes for this review are provided below:

- Please focus comments only on substantive issues.
- Combine all comments from an office or region into a single document, then upload to the GenX or PFBS folder on the SharePoint site. Only the Agency Review contacts have access to the site (see below). Sharing of the materials and compilation of comments from your respective office or region is via the designated Agency Review

contact. Contacts please coordinate within your respective offices, especially noting the PFAS Regional Coordinators listed in the table below.

- Please note that GenX Appendix B is not included and will be sent as a separate file as soon as possible.
- Post all comments to the SharePoint site by **COB Friday, May 25.**

We appreciate your feedback and will carefully consider it in the assessments. In consideration of the Administrator's timeline, we will not be able to provide a formal response to comments.

Agency Review Contacts

Office of Water Greg Miller

Office of Chemical Safety and Pollution Prevention

- **Office of Pesticide Programs** Anna Lowit

- **Office of Pollution Prevention and Toxics** Susan Laessig
